RECYCLED PERCUSSION

Recycled Percussion has emerged as one of the most powerful touring shows in the U.S. The band has single-handedly brought the terms "Power-Percussion" and "Junk Rock" into mainstream music circles with their live show. Remarkable hard-rock led by the world's "fastest extreme drummer" Justin Spencer, and the hip-hop funk grooves spun by turntablist "Dj Pharoah" create music that is a fist-pumping thrill to experience. Recycled Percussion's dynamic live performance is considered to be the peak of on-stage percussion extremity. Performing on everything from their signature "trash" kits, including plastic buckets, huge ladders, mortar casings and giant 50 gallon containers, the band keeps the audience on their feet throughout their stage show. After Recycled Percussion you won't want to miss the Fireworks Spectacular show.
